Subject: Lantek III Approval for certification of R&M installed systems

Dear Mr Payerle,

Effective 1<sup>st</sup> June 2017, **Reichle & DeMassari AG** is pleased to announce the approval of the Lantek III series cable certifier. This approval is based upon evaluation of the Lantek III versus network analyzer by **our in-house** Labs and the verification by Ideal that the Firmware will be upgraded according our agreement.

Lantek III is approved for use in both Permanent Link and Channel certification testing with all of our Category 6A/Class EA, Category 6/Class E system warranties.

The following configuration of Lantek III is required.

Firmware version 3.105 or higher

Please note: This approval is based upon the revised and improved firmware upgrade and all tests with firmware versions prior to this date are not recognised by Reichle & DeMassari

- Lantek III Firmware version: **3.105**

Sincerely

Andrew Sedman  
Head of Technical Support and Training
